

# Welcome to ALDI...

shop  smart!

Founded in 1976, ALDI is one of the largest grocery retailers in the world. With over 900 stores in the United States, ALDI focuses on the core principles of **Incredible Value**, **Guaranteed Quality**, and **Unbelievable Savings** of both time and money.

**You only pay for what you take home,**  
not the extras that increase prices.

One of the ways ALDI trims costs is by utilizing a cart rental system where the customer inserts a quarter into a slot to release the cart. When the cart is returned to the corral, the quarter is returned to the customer.

**Fancy stores have fancy prices. Keep it simple and save!**

From specialty ALDI brands, to fresh produce, meats, and dairy items, discover all of the smart reasons why ALDI should be your food market.

How does ALDI manage to keep prices so low? In addition to streamlined operations, you'll find specialty ALDI brands that meet or surpass the most popular name brand equivalent, so you'll always get the trusted ingredients, freshness, and taste that your family deserves.

If you're not 100% satisfied, ALDI will replace your product and refund your money.

## Bring Your Own Bag!

The bagging is up to you. The low prices are up to us. Many new ALDI customers ask why they have to pay for bags. ALDI does not believe in hiding the cost of grocery bags in its pricing and even encourages customers to bring their own bags.
